Program Description
This curriculum is designed for students planning to transfer to a four-year college and major in general business, or a more specialized field of business such as finance, accounting, international business, marketing, or management. It also provides a solid foundation for students planning to major in economics or pre-law. Completion of all requirements for this curriculum will lead to the award of the AA degree in business. Note: Many credits earned in the management certificate requirements may not be applied toward an AA in business. Students should seek advice from a counselor.

Business students may be eligible for the Macklin Business Institute scholars program, a competitive honors program which includes seminars, special honors courses, mentoring, the possibility of an internship, and a scholarship. Students potentially interested in this program should take ECON 201, ECON 202, or ACCT 222 in the sophomore year. For more information on this program see this catalog, the Montgomery College website, or a counselor.

Program Outcomes
Upon completion of this program a student will be able to:

• Interpret and evaluate financial information to assist business decision making.
• Apply economic principles to business decision making.
• Apply basic ethical principles to businesses practices.
• Use appropriate analytical and statistical tools and technology to support business practices.
