

MANAGEMENT OF CONSTRUCTION CERTIFICATE

Total Credits: 33

Catalog Edition: 2025-2026

Program Description

(R): 142

This certificate curriculum is designed to serve personnel presently employed in construction-related industries who might not want to complete an associate's degree. Students will be able to enroll in specific professional/academic courses that will lead to an upgrading of their professional competence.

The certificate provides students with formal recognition of academic achievement for completing selected courses from the Management of Construction Area of Concentration, Architectural/Construction Technology AAS: 303. The student may transfer to the AAS area of concentration.

- Prof. Mark Corfman, 240-567-4251,
Lewis.Corfman@montgomerycollege.edu

Program Outcomes

Upon completion of this program, a student will be able to:

- Explain the principles and methods used in the installation of materials and building components including structural, nonstructural, mechanical, and electrical systems.
- Demonstrate technical mastery of the methods and procedures of reading architectural, structural, and mechanical drawings.
- Assist a field manager or project manager with basic project administration procedures both in the field and at the office.
- Demonstrate technical mastery in the computer software and surveying equipment used for project administration, estimating, scheduling, and surveying.
- Develop a working knowledge of construction estimating and scheduling procedures and the legal implications applicable to a construction project.
