PHOTOGRAPHY MASTER CERTIFICATE: 196
Total Credits: 32
Catalog Edition: 2021-2022

Program Description

This certificate curriculum is intended to prepare students for careers in photography-industrial, commercial, portrait, lab technician-and management of photographic services. It provides a balanced aesthetic and technical foundation for entry into the professional field or for further study.

Program Outcomes

Upon completion of this program a student will be able to:

- Apply traditional darkroom photographic principles, practices and problem-solving methods to the current digital imaging technology.
- Operate a wide variety of photographic lighting equipment for use in studio, architectural, fine art, and varied commercial environments.
- Effectively evaluate photographs with a thorough understanding of the creative process, based on academic research.
- Design and implement a business development strategy appropriate for the field of photography.
- Create and implement a complex production plan that includes related disciplines including video production, web design, computer graphics, or gaming.
