Program Description
(R): 224

This curriculum is intended to upgrade skills for currently employed individuals in interiors-related careers, to provide new skills, or to provide skills for a change in job specialization. The concentration is on technical and specialized education in advanced design topics, such as lighting, kitchen, bath, office, AA specifications, and other specialty career options within the interior design profession. Portfolio and/or résumé review approval by the program advisor is required prior to enrollment in the advanced courses.

Program Outcomes
Upon completion of this program a student will be able to:

• Apply design principles and color theory in the execution of interior design projects.
• Identify the correct textiles, materials, finishes, and furniture for specifications.
• Collect and interpret the data necessary to solve interior design problems.
• Execute presentation and construction drawings.
• Be familiar with interior design principles and ethics.
Program Requirements
A suggested course sequence for full-time students follows. All students should review this advising guide and consult an advisor.
