This Professional and Technical Writing Certificate curriculum prepares students to meet the growing demands for workplace writing. The Professional and Technical Writing Certificate Program is designed for students from a variety of degree programs who want to move into professional writing careers, to enhance their employability, or to upgrade their skills.

The curriculum prepares students to design, write, and produce documents and presentations in a work environment. Students will advance their writing and editing skills as well as learn visual-design software. Students can tailor the certificate to focus on their specific area of interest, choosing from public relations, production of written documents, and graphic design. This program can be completed either on campus or online.

Program Outcomes
Upon completion of this program, a student will be able to:

- Write clearly for different audiences.
- Edit documents for correctness and consistency.
- Edit documents using sound grammar.
- Plan the document production process, including budgeting and scheduling.
- Plan, deliver, and critique presentations for the workplace.
- Use graphic design software to produce visual images that enhance communication in the written document.

Program Advisors
