Program Description
(R): 305

The illustration area of concentration prepares the student for work in a variety of illustration markets including narrative, animation, gaming, sequential, editorial, advertising, and concept art. Some students choose to continue their studies and have been successful transferring to four-year institutions with resulting portfolio. Emphasis is placed on creating visual interpretations of subjects, conceptualizing, communicating, and refining technical skills using both traditional and digital media while preparing a portfolio.

Program Outcomes
Upon completion of this program, a student will be able to:

- Demonstrate solid foundation skills and competency in a range of media, techniques, and knowledge of associated processes to create products for a specified purpose or audience.
- Apply visual problem solving that employs appropriate technical skills and techniques.
- Evaluate the creativity of ideas and use of concepts for visual communication.
