HVAC AREA OF CONCENTRATION, BUILDING TRADES TECHNOLOGY AAS: 308C

Total Credits: 60
Catalog Edition: 2020-2021

Program Description
(R): 308C

This program is intended to prepare students for careers in the building and construction trades. The general education courses, in conjunction with specialized courses, provide a broad foundation and sharpen students' skills in preparation for entry into, or advancement in, today's workplace. This curriculum, following the carpentry area of concentration, provides training, skills, and knowledge that prepares students for employment as carpenters; or provides current building and construction professionals with essential carpentry skills. This curriculum, following the electrical wiring area of concentration, provides training, skills and knowledge that prepares students for employment as electricians; or provides current building and construction professionals with essential electrical wiring skills. This curriculum, following the HVAC area of concentration, provides training, skills, and knowledge that prepares students for employment as HVAC technicians; or provides current building and construction professionals with essential HVAC technician skills. HVAC area of concentration, students, in order to receive the AAS, must pass the E.P.A. 608 Certification Exam and at least one Industry Competency Exam (ICE).

Program Outcomes
Upon completion of this program a student will be able to:

• Define and explain the basic principles and techniques of residential construction.
• Apply relevant construction skills in a particular trade area.
