HVAC AREA OF CONCENTRATION, BUILDING TRADES TECHNOLOGY AAS Total Credits: 60 Catalog Edition: 2024-2025

Program Description

(R): 308C

This program is intended to prepare students for careers in the building and construction trades. The General Education courses, in conjunction with specialized courses, provide a broad foundation and sharpen students' skills in preparation for entry into or advancement in today's workplace. This curriculum, following the HVAC area of concentration, provides training, skills, and knowledge that prepares students for employment as HVAC technicians or provides current building and construction professionals with essential HVAC technician skills. In order to receive the AAS, HVAC area of concentration students must pass the E.P.A. 608 Certification Exam and at least one Industry Competency Exam (ICE).

Program Outcomes

Upon completion of this program, a student will be able to:

- Define and explain the basic principles and techniques of residential construction.
- Apply relevant construction skills in a particular trade area.
