Program Description
The Media Production curriculum, including video, film and audio, is planned to provide a fundamental course of study and training in basic skills for students who plan to continue study at a four-year institution, expect to enter a professional training program in the media production industry, or wish to seek professional employment in broadcast media, commercial, industrial, interactive, or educational production and distribution. Students develop technical skills, writing skills, aesthetic values, and professional attitudes supported by highly committed faculty with practical experience in the field of production. The attainment of content production skills is demonstrated in a digital portfolio designed to support transfer application or a job search.

Completion of all curriculum requirements will lead to the award of the associate of arts (A.A.). All students should meet with an academic advisor in the Media Arts & Technologies Department to make an academic plan or discuss career or transfer goals.

Program Outcomes
Upon completion of this program, a student will be able to:

• Successfully record video and audio in studio and on location with various professional cameras, microphones, lights, and recording devices.
• Write content for broadcast, social media, and Internet conferences and webinars to engage, inform, or entertain.
• Produce and edit segments and programs of various lengths for the media production industry, social media, and the Internet.
• Demonstrate the ability to successfully meet production deadlines through leadership, an understanding of technical and logistic issues, and planning and preparation.
• Create a portfolio that reflects the rapidly changing structure of the media content production industry and its employment opportunities.

Program Advisors
Rockville
• Dr. Tiffany Copeland, 240-567-5307, Tiffany.Copeland@montgomerycollege.edu
• Prof. Christopher Koch, 240-567-5305, Christopher.Koch@montgomerycollege.edu
