DIGITAL MEDIA AND WEB TECHNOLOGY AA
Total Credits: 60
Catalog Edition: 2023-2024

Program Description
From front-end development to server-side programming and databases, this program provides students with the skills and knowledge needed to excel in the rapidly growing field of website and web application development. Students in this program will gain hands-on experience in HTML, CSS, and JavaScript, as well as database and web application development using industry standard equipment and software. This degree prepares students for transfer to a four-year institution as well as a variety of entry and mid-level positions such as user-interface developers, web developers, digital media specialists, web designers, and multimedia specialists. This program can be completed either on campus or online.

Program Outcomes
Upon completion of this program, a student will be able to:

• Demonstrate currency and proficiency in the digital tools employed in website and web application development.
• Apply the techniques and knowledge of foundational skills in a range of media to create professional quality websites and web applications that comply with current web standards and are representative of the material and techniques studied.

Program Advisors
Rockville
• Prof. John "Erik" Swanson, 240-567-7529, John.Swanson@montgomerycollege.edu
