

PHOTOGRAPHIC TECHNIQUES CERTIFICATE: 194

Total Credits: 13

Catalog Edition: 2019-2020

Program Description

(R): 194

This certificate curriculum is intended to upgrade skills for currently employed individuals or to provide new skills for a change in job specialization. It provides basic and advanced black-and-white and color photography skills, covering both the technology and image production used in professional photography.

THIS PROGRAM IS NO LONGER ACCEPTING ENROLLMENT.

Program Outcomes

Upon completion of this program a student will be able to:

- Use traditional photographic techniques that include black-and-white film and print processing.
- Develop advanced testing methods for traditional film and print processes including the production of archival, black-and-white portfolios.
- Demonstrate advanced expertise with traditional camera formats that include medium and large-format film cameras.
- Demonstrate advanced expertise in the development and execution of complex color strategies for use in commercial or fine art photographic applications.
- Create an advanced color image portfolio in either print or electronic form for use in commercial or fine art applications.
- Utilize a wide variety of lighting applications for use in studio, architectural, fine art, and varied commercial environments.

This program is not eligible for federal and state financial aid.
